

SacMoves Coalition  
Agenda 2025-10-17

Update on transportation funding measures: We had in-depth presentations last meeting, see notes on the website for those. This will probably be a briefer update on some apparent trends, though there may be more information in the week before our meeting. We expect in-depth discussion and decisions in December.

Funding alternatives draft: review the funding alternatives spreadsheet and add information; prioritization may have happened in the future.
